Medicare Revalidation List

Medicare providers must revalidate their enrollment record information every three or five years. CMS sets every provider's revalidation due-date at the end of a month, and posts the upcoming six months online. A due date of "TBD" means that CMS has not set the date yet.

CMS offers several ways for you to view and group the revalidation dates of every provider:

- This data was last refreshed on **September 1st, 2016**
- Revalidation due dates included on this list range between **March 1, 2016 and March 31st, 2017**
- The next data refresh is tentatively scheduled for **November 1st, 2016**
- Affiliations now include Reassignments as well as PA Employment Relationships
