

January 29, 2016

Dear CAC Members:

The next Carrier Advisory Committee (CAC) meeting will convene on February 12, 2016 from 7:00-9:00 a.m. HT at The Pacific Club, Card Room 1451 Queen Emma St. Honolulu, HI 96813

The following Draft Local Coverage Determinations will be presented:

- Benign Skin Lesion Removal (Excludes Actinic Keratosis, and Mohs)
- Intensity Modulated Radiation Therapy (IMRT)
- MolDX: HLA-DQB1*06:02 Testing for Narcolepsy
- MolDX: Chromosome 1p/19q Deletion Analysis
- Total Hip Arthroplasty
- Total Knee Arthroplasty
- Treatment of Males with Low Testosterone

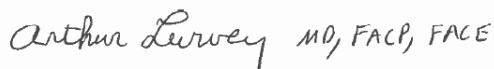

Noridian would like to take this opportunity to remind members that the purpose for the CAC is to provide:

- A formal mechanism for physicians in the State to be informed of and participate in the development of an LCD in an advisory capacity;
- A mechanism to discuss and improve administrative policies that are within carrier discretion; and
- A forum for information exchange between carriers and physicians.

I also would like to welcome all non-member physicians to this meeting. I am available before and after the CAC meeting as well.

We are looking forward to your attendance and continued participation.

Sincerely,

Arthur Lurvey MD, FACP, FACE
Contractor Medical Director
