## KEY

\*Ranges of average wholesale prices (AWPs) are from the September to November 2002 *Redbook Update*. The information contained in this list is derived from sources that ACCC believes to be accurate and reliable. Because error, whether human or mechanical, is possible, ACCC makes no representation or warranty, expressed or implied, as to the accuracy, timeliness, or completeness of any information contained herein. Some dosages may not be available. Not all dosages are listed. Agents selected are commonly used injectables. ACCC shall have no liability to any person for any loss or damage resulting from any error herein.

\*\*The median is the point on the scale above which—and correspondingly below which—50 percent of the cases lie. With an even number of items, the mean, or average, is taken of the value of the two middle items.

★ = Item has been added or changed since last issue.
