A sponsored message brought to you by the Association of Community Cancer Centers

[TRANSFORM]
BETTER
HEALTHCARE
THROUGH
MATH

Dec 6, 2023
10:00 AM - 2:00 PM CT
[Register Now](#)

More than 600 infusion centers are leveraging AI, analytics, and automation to expand patient capacity and unburden staff. Discover how your peers are reimagining infusion center operations with AI to help patients get easier access to life-saving appointments, empower staff to know what's coming, reduce wait times by 30% and nurse overtime by 50%, and generate an additional \$20k/infusion chair.

On December 6, LeanTaaS will host virtual discussions with executives and industry experts from infusion centers that are advancing the use of AI to transform their operational and financial performance. Register [here](#).

Featured Sessions

- Empowered by Data: How Kaleida Health Used Predictive Analytics to Accommodate 20% Patient Volume Growth
- Resilience in Action: Infusion Centers as Catalysts for Innovation featuring Duke Health
- Unlocking AI in Infusion Centers: Tackling Tech, Regulation, and Value
