ABOUT ACCC

Since 1974, the Association of Community Cancer Centers (ACCC) has been promoting the entire continuum of quality cancer care for our members, their patients, and their communities. ACCC membership includes:

- More than 25,000 cancer care professionals from approximately 2,100 hospitals and practices, with an estimated 65% of cancer patients nationwide treated by an ACCC member.
- The entire cancer care team—cancer program administrators and managers, data managers/tumor registrars, financial advocates, hospital executives, oncology physicians, nurses and pharmacists, patient navigators, social workers, billers and coders, and others.
- All models of cancer treatment delivery—hospitals, physician practices, freestanding centers, and joint ventures between hospitals and physicians.
- A variety of care settings, from small community programs to major academic programs that see more than 15,000 patients annually.

ABOUT HSCO

The Hawaii Society of Clinical Oncology (HSCO) is a powerful community of practitioners that has provided a voice for multidisciplinary cancer care teams and the patients they serve since 1996. As a Chapter Member of ACCC, HSCO provides its members with incredible tools and resources in response to national changes across the healthcare landscape—in addition to local, member-driven educational content and programming.
