ASSOCIATION OF COMMUNITY CANCER CENTERS

TOGETHER
WE ARE
STRONGER

JOIN ACCC AS A CANCER PROGRAM MEMBER!
ACCC is a powerful network of more than 25,000 multidisciplinary practitioners and 2,000 cancer programs and practices nationwide. ACCC represents cancer care professionals from every discipline in oncology—working in every care delivery setting. From private practices to hospital-based cancer programs, large healthcare systems, and major academic centers, ACCC members address the most critical issues in quality cancer care delivery.

**Together We Are Advancing Quality Care**
ACCC quality improvement initiatives address gaps in care delivery and coordination, help translate cutting-edge information into real-world practice, and optimize patient outcomes.

- Learn how cancer programs control costs, implement new standards, meet quality measures, and launch innovative organizational strategies.
- Online and print resources are informed by the challenges and successes of our members, and aim to help them deliver care that is accessible, coordinated, and cost-effective.
- ACCC programs address trends such as *The Future of Patient-Centered Care* and *Envisioning Next Gen Multidisciplinary Cancer Care*.

**Together We Are Improving the Patient Experience**
ACCC develops cost-effective and replicable tools to help members integrate and grow services that support their patients’ physical, psychosocial, and financial well-being.

- The ACCC Financial Advocacy Network and the online Boot Camp offer dynamic resources to support financial advocates and address potential barriers to care created by costs.
- Effective practices on supportive care, distress screening, and care coordination offer actionable information for enhancing patient-centered care.
- Process improvement initiatives provide step-by-step strategies for efficient integration of treatment advances into your practice or program.

**How-to resources for every member of the cancer care team**, on topics such as patient-centered care, staffing, strategic planning, precision medicine, practice improvement, immunotherapy, molecular testing, specialty pharmacy, oral oncolytics, and more.

“I attend ACCC conferences for my professional development. There is so much changing in the oncology world—and I get the best information from ACCC.”

Laurie Tyer, MSN, RN
The Lahey Center for Oncology and Hematology at Parkland Medical Center

Cancer care is a team effort. The Association of Community Cancer Centers (ACCC) provides a multidisciplinary, how-to perspective to support you and your team in providing exceptional patient care. **Together we are stronger.**
Together We Are Preparing for the Future
ACCC provides the information and support our members need—not just to survive—but to thrive in a complex and ever-changing healthcare delivery system.

- From the state to national level, ACCC lobbies on issues impacting oncology and represents members in federal agencies and the White House. Our Capitol Hill Day enables members to advocate for access to affordable care.
- The ACCC Immuno-Oncology Institute is the only comprehensive initiative to prepare multidisciplinary cancer care providers for the complex implementation of immuno-oncology in the community setting.
- The Oncology Pharmacy Education Network (OPEN) offers tools for clinical and operational success.
- Oncology Care Model (OCM)—participating practices can join the ACCC OCM Collaborative for valuable, peer-to-peer learning, insights from thought leaders, and access to effective practices for meeting OCM requirements.
- Forward-thinking approaches to business, policy, economic, and reimbursement challenges support strategic planning for measurable results.

ACCC is a community of cancer centers. We invite you and your cancer program to become part of our community.

The Association of Community Cancer Centers (ACCC) is the leading education and advocacy organization for the multidisciplinary cancer team.

Founded in 1974, ACCC promotes the entire continuum of quality cancer care for our members and the patients they serve in communities nationwide. Our multidisciplinary approach is reflected in our leadership structure, national and regional meetings, bi-monthly Oncology Issues journal, newsletters, white papers, elearning modules, and webinars.

It is estimated that 65% of the nation’s cancer patients are treated by a member of ACCC.

"I’d like to thank the Association of Community Cancer Centers for supporting the entire multidisciplinary team. Together we are stronger."
Jennie R. Crews, MD, MMM, FACP, Medical Director
