Room Cleaning Guidelines COVID-19

1. Clean room after patient exits
2. Hand hygiene and wear necessary PPE, gloves, mask
3. Pull table paper down from top near head
4. Leave exam cape or sheet and roll it up with table paper. Remove table paper starting at the bottom by rolling paper up so the exposed top is rolled up, exposing the underneath then tear off at head and dispose in receptacle
5. Use approved hospital disinfectant wipe or spray on all highly touched surfaces adhering to wet to dry time. See label
6. Wipe exam table, guest chair, counter, equipment, such as otoscope, ophthalmoscope, faucet, handle, door handle
7. Remove PPE and dispose of in receptacle, hand hygiene, exit room
