**Collaborative Care:
A Model for Embedding
Counseling in Oncology**

With the recognition that its growing cancer program did not have enough social work resources to meet patient needs, Lipson Cancer Institute identified an existing Collaborative Care program embedded in the health care system's primary care and OB-GYN clinics as a possible solution to expand social work support. Learn how building a Collaborative Care program in oncology provided the financial infrastructure to expand services and address many of the behavioral health needs of its patients.

By Earon Lehning, LCSW

DEPARTMENTS

- 2** From the Editor | Charting Our Course: Rebranding, ACCC 50th Anniversary, and Growing Our Community
- 3** President's Message | Legacy of Upskilling: Building the Future of Oncology Care
- 62** Fast Facts | Physician survey highlights staffing challenges, and more
- 64** Issues | CMS Finalizes Rule to Improve the Prior Authorization Process
- 66** Compliance | 2024 Coding Update and Highlights from the HOPPS and MPFS Final Rules
