Assistant Professor
Department of Health Disparities Research
The University of Texas
MD Anderson Cancer Center

Karen M. Basen-Engquist, PhD, MPH
Director, Center for Energy Balance in Cancer Prevention and Survivorship
The University of Texas
MD Anderson Cancer Center

Thursday, June 27, 2024
12:00 – 1:00 pm CST
Location: Zoom Webinar ID: 889 8265 9982
Passcode: 000619

The Center for Energy Balance in Cancer Prevention and Survivorship, of the Duncan Family Institute, facilitates and conducts state-of-the-science research to understand the relationship between activity, nutrition, obesity and cancer, and uses this knowledge to optimize interventions to decrease cancer risk and improve cancer outcomes. The Center sponsors collaborative research, transdisciplinary educational opportunities and seminars to create, produce and disseminate innovative and practice-changing research results.

Active Living After Cancer is made possible by a grant provided by the Cancer Prevention and Research Institute of Texas.
