The Oncology State Societies at ACCC is a network of 23 state societies that are managed by the Association of Community Cancer Centers (ACCC) and are members of the American Society of Clinical Oncology (ASCO) State/Regional Affiliate Program. Societies receive select benefits in the ACCC, participate on the ASCO State Affiliate Council, and develop state-specific educational resources to help members stay ahead of the shifting healthcare landscape and challenges that directly impact the high-quality care their patients deserve.

All benefits are subject to Oncology State Society Board review, approval, and availability. Corporate Membership is provided without condition of product use, formulary status or purchasing commitment.

See the 2024 Terms & Conditions under Helpful Links on the Exhibitor Information page of the State Society website under the Industry navigation tab for more information on the state society policies and procedures related to the Corporate Membership program.
