

# ASSOCIATION OF COMMUNITY CANCER CENTERS

## INTEGRATION OF PATHOLOGY IN ONCOLOGY CARE: LEADERSHIP SUMMIT PARTICIPANT LIST

Association of Community Cancer Centers

**Timothy C. Allen, MD, JD, FCAP**  
Professor and Department Chair, Pathology  
*University of Mississippi Medical Center*

Timothy C. Allen, MD, JD, FCAP, is professor and chair of the pathology department at the University of Mississippi Medical Center in Jackson, Mississippi. Dr. Allen is certified by the American Board of Pathology in anatomic and clinical pathology, with added qualification in cytopathology. He is an associate editor of the Archives of Pathology and Laboratory Medicine, and author and coauthor of numerous articles and book chapters on pulmonary pathology and medicolegal issues. He is also coeditor of the Advances in Surgical Pathology series.

Dr. Allen is the immediate past-president of the Pulmonary Pathology Society, president of the Texas Society of Pathologists, and governor of the College of American Pathologists Board of Governors.

**Lucia Barker, PhD**  
Director, Education Programs  
*Association for Molecular Pathology (AMP)*

Lucia Barker, PhD, is the director of education programs for the Association for Molecular Pathology (AMP), prior to which she served as the scientific program manager for the American Society of Human Genetics (ASHG). Dr. Barker obtained her doctorate in molecular microbiology and immunology from the University of Missouri – Columbia.

**Nicole Braccio, PharmD**  
Director of Policy  
*National Patient Advocate Foundation (NPAF)*

Nicole Braccio, PharmD, is the policy director at National Patient Advocate Foundation (NPAF) and a practicing pharmacist, who is passionate about working directly with patients to address their needs.

Since joining NPAF, Dr. Braccio has overseen the development of person-centered policies that promote equitable access to affordable, quality care. Working with the patient service data from the case management program generated by NPAF's sister organization, Patient Advocate Foundation, she identifies opportunities to educate lawmakers on the everyday issues confronted by real patients and their families. Prior to her role at NPAF, Dr. Braccio assisted clients at Avalere Health, primarily focusing on access to innovative treatments in public and private insurance markets.

Dr. Braccio serves as director of communications for the Society of Health Policy Young Professionals and mentor for StreetWise Partners, which works to reduce unemployment in disadvantaged communities.

**Hallie Brewer, CA-AM**  
**Director of Operations and Strategic Alliances**  
*College of American Pathologists (CAP)*

Hallie Brewer, CA-AM, is the director of operations and strategic alliances for the College of American Pathologists (CAP) and has been a leader in a variety of settings, including healthcare, logistics, and as an officer in the United States Army. Much of Ms. Brewer's work has been focused on developing and implementing new programs, supporting her team, and serving her organization's big-picture goals.

**Sandra M. Brown, MS, LCGC**  
**Manager, Cancer Genetics**  
*St. Joseph Hospital*

Sandra M. Brown, MS, LCGC, is manager of the cancer genetics program at St. Joseph Hospital in Orange, California. Prior to joining St. Joseph Hospital, Ms. Brown served as the cancer genetic counselor for MemorialCare Health System. She is an active member of several international, national, state, and regional patient advocate, policy, and research networks for inherited cancers including ACCC, California Department of Health Care Services - Every Woman Counts, Lynch Syndrome Screening Network, Facing Our Risk of Cancer Empowered, Ovarian Cancer Orange County Alliance, and the International Clinical Cancer Genetics Community Research Network.

She frequently addresses professional, national association, and lay audiences; collaborates on important research; and provides leadership to cancer risk awareness campaigns and support groups. Ms. Brown obtained her master's in human/medical genetics from the University of California, Irvine.

**Andrew Burg, MD**  
**Medical Director, Southern California Market**  
*Aetna*

Andrew Burg, MD, is the medical director of the Southern California region for Aetna and the company's pathology subject matter expert. Prior to joining Aetna, Dr. Burg worked as the chief medical officer of Dignity Health in Long Beach, California. He completed his training in anatomic and clinical pathology at University of California - Irvine and a fellowship in breast and gynecologic pathology.

Anjen Chenn, MD, PhD  
Senior and Discipline Director, Molecular Oncology  
*LabCorp, Center for Molecular Biology and Pathology*

Rob Dumanois  
Manager, Reimbursement Strategy  
*Thermo Fisher Scientific*

Rob Dumanois is manager of reimbursement strategy at Thermo Fisher Scientific (former Life Technologies, Inc.), which he joined in 2012 through an acquisition of Navigenics where he led development and account growth of health plans, large employers, and voluntary benefit providers. has over 20 years' experience working with payers, providers, and CLIA labs.

His current role includes design and execution of reimbursement strategies for Oncomine™ Dx Target Test, the first FDA-approved next-generation sequencing (NGS) in vitro diagnostic test for non-small cell lung carcinoma (NSCLC), offering clinically actionable and analytical cancer-driver biomarker information to inform treatment decisions. This is a multimarker companion diagnostic, developed in partnership with Pfizer and Novartis.

Julia Elvin, MD, PhD  
Vice President and Senior Associate Medical Director  
*Foundation Medicine*

Julie Elvin, MD, PhD, is the vice president and senior associate medical director at Foundation Medicine. Dr. Elvin obtained her doctorates from the Baylor College of Medicine.

Patricia Goede, PhD, MS  
Vice President, Clinical Informatics  
*XIFIN ProNet*

Patricia Goede, PhD, MS, is vice president of clinical informatics at XIFIN, Inc., where she brings 22 years of experience developing biomedical imaging informatics solutions and technology to facilitate multimodality and multispecialty image-based exchange, collaboration, and management in distributed environments. Dr. Goede founded VisualShare and served as CEO until its acquisition by XIFIN in 2015. Previously, she was at the University of Utah where she pioneered a number of images, visualization, and collaboration tools.

She is the founder of the Electronic Medical Education Resource Group (EMERG), and as its director, established the Utah Center of Excellence for Electronic Medical Education. Dr. Goede holds a master's in computational visualization and a doctorate in biomedical imaging informatics.

**Allen Gown, MD**  
Director and Chief Pathologist  
*PhenoPath*

Allen Gown, MD, is director and chief pathologist at PhenoPath. Dr. Gown rose through the ranks to full professor of pathology and served as attending pathologist at the University of Washington Medical Center, where he developed and directed the immunohistochemistry (IHC) laboratory. In 1997, Dr. Gown left the University of Washington to found PhenoPath, which has grown to become an internationally renowned specialty pathology reference which has grown to become an internationally renowned specialty pathology reference laboratory.

Recognized as one of the world's leading experts in the diagnostic and research applications of IHC, Dr. Gown has developed numerous clinically important monoclonal antibodies employed in IHC laboratories around the world (HMB-45, OSCAR, etc.). He continues to be at the forefront of clinical investigative studies employing IHC and other modalities with over 300 peer-reviewed publications and as a frequent presenter at national and international conferences.

**Pablo D. Gutman, MD, MBA**  
Medical Director/Department Chair, Pathology  
*Cancer Institute, Holy Cross Health*

Pablo D. Gutman, MD, MBA, is medical director and chair of the pathology department at Holy Cross Health Cancer Institute (a 500+ bed hospital system in the Washington D.C. metropolitan area). He is board certified in anatomical pathology, clinical pathology, hematopathology, and cytopathology. He is specially interested in optimizing tissue acquisition and processing for diagnosis and molecular testing.

**Dana Herndon, RN, BSN**  
Thoracic Oncology Nurse Navigator  
*Cone Health Cancer Center*

Dana Herndon, RN, BSN, is a thoracic oncology nurse navigator at Cone Health Cancer Center at Wesley Long Hospital in Greensboro, North Carolina. Ms. Herndon holds a bachelor's in nursing from the University of North Carolina at Greensboro.

**Karen Hurley, PhD**  
**Clinical Psychologist-Hereditary Cancer Risk**  
*Cleveland Clinic*

Karen Hurley, PhD, joined the professional staff at Cleveland Clinic in 2016, bringing with her nearly 20 years of experience as a licensed clinical psychologist specializing in hereditary cancer risk. She has provided psychotherapy and consultation to approximately 500 individuals, couples, and families with BRCA1/2 mutations, Lynch syndrome, FAP, hereditary diffuse gastric cancer, Li-Fraumeni syndrome, and other forms of hereditary cancer.

Dr. Hurley frequently presents lectures, workshops, and webinars for national and international audiences on decision-making about risk-reducing surgery; talking to children about risk and building psychological resilience in the face of hereditary risk. She is a member of several national and local advisory boards, including FORCE (Facing Our Risk of Cancer Empowered), Bright Pink, Sharsheret, Cancer Support Community's Breast and Gastric Cancer Registries, and The Gathering Place.

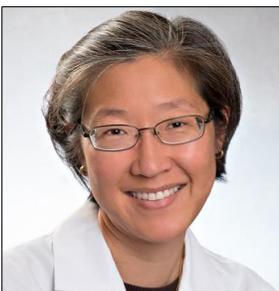

In 2014, she received a Spirit of Empowerment Award for Individual Commitment at the eighth annual FORCE conference, in recognition of her work on behalf of the hereditary cancer community.

**Nilesh Kalariya, RN, PhD**  
**Nurse Scientist**  
*MD Anderson Cancer Center*

Nilesh Kalariya, RN, PhD, is a nurse scientist at MD Anderson Cancer Center. A "unique nurse" and "true nurse scientist," Dr. Kalariya earned his doctorate in life science from the University of Texas Medical Branch at Galveston.

The distinctive combination of scientist and caretaker has made Dr. Kalariya a thorough, detailed-oriented, and compassionate nurse who is consistently recognized by patients for his contributions to their care. He has made numerous contributions to the science of nursing practice through publications and participation in nurse-driven research.

**Annette Kim, MD, PhD**  
**Associate Pathologist, Assistant Director - Center of Advanced Molecular**  
**Diagnostics, *Brigham and Women's Hospital***  
**Associate Professor - *Harvard Medical School***

Annette Kim, MD, PhD, is associate pathologist and assistant director for the Center of Advanced Molecular Diagnostics – Brigham and Women's Hospital; and associate professor at the Harvard Medical School. Dr. Kim entered Harvard Medical School after intensive undergraduate research in synthetic organic chemistry with a strong desire to conduct

informed biomedical research.

She later joined Merck Research Laboratories where she initiated a tyrosine kinase inhibitor program. She rapidly became involved in large profiling efforts and was soon recruited by the cancer biology department to lead their molecular profiling program, marking her transition from a chemistry-oriented scientist to a more purely translational scientist. There she utilized molecular profiling and siRNA methods to develop synthetic lethal screening for the identification of responder phenotypes to drugs and drug combinations.

After leaving Merck, Dr. Kim continues to do research, teach, and perform clinical duties in hematopathology and molecular pathology at Vanderbilt University Medical Center (VUMC) where her research program focused on the study of normal and aberrant hematopoiesis, specifically myelodysplastic syndromes (MDS).

**Jennifer Klemp, PhD, MPH**  
**Assistant Professor, Managing Director**  
***Breast Cancer Survivorship Center, University of Kansas Cancer Center***

Jennifer Klemp, PhD, MPH, is an associate professor of medicine in the Division of Clinical Oncology, a cancer risk counselor, and the director of cancer survivorship at the University of Kansas Cancer Center. She is the founder and CEO of Cancer Survivorship Training, Inc., an online education company supporting healthcare professionals, and is the principal of Cancer Resource Partners, LLC, an organization providing consulting and resources to healthcare-related organizations and providers.

Dr. Klemp has worked in the field of breast cancer prevention and survivorship since 1996, having published and presented work with a focus on shared decision-making regarding options to manage cancer risk, the impact of lifestyle modification on cancer survivors, and the development of cancer survivorship programming.

She earned her master's in public health at the University of Kansas Medical Center, a master's in clinical psychology from the University of Kansas, and completed her doctorate in clinical health psychology from the University of Kansas.

**Anthony Magliocco, MD, BSc, FRCPC, FCAP**  
**Senior Member and Chair, Department of Anatomic Pathology**  
**Executive Director, Esoteric Laboratory Services**  
***Moffitt Cancer Center***

Anthony Magliocco, MD, BSc, FRCPC, FCAP, is chair of anatomical pathology and director of esoteric laboratory services at the Moffitt Cancer Center. A molecular and anatomical pathologist, his main research focuses on development of novel clinical predictive assays for cancer patients. Dr. Magliocco has special expertise in women's cancers and conducts scientific research into the molecular basis of metastasis.

**Amy McNeal**  
Vice President, Reimbursement Strategy & Managed Care  
*Biocept, Inc.*

Amy McNeal is vice president of reimbursement strategy & managed care at Biocept, Inc., to which she has more than 20 years of experience in the diagnostic laboratory industry where she has held leadership roles in both sales and business development. During the past 10 years, she has focused on developing and implementing reimbursement strategies and managed care contracting. Prior to Biocept she held various positions with Clariant (a GE Healthcare Company), Pathology, Inc., Quest Diagnostics, and LabCorp.

**Dan Milner Jr., MD, MSc(Epi)**  
Chief Medical Officer  
*American Society for Clinical Pathology (ASCP)*

Danny Milner Jr., MD, MSc(Epi), is chief medical officer of ASCP, which he joined in 2016 from Harvard Medical School, where he held the position of associate professor of pathology and associate professor in the Department of Immunology and Infectious Disease at the Harvard T. H. Chan School of Public Health.

In his current role, Dr. Milner provides oversight and direction for medical aspects of ASCP's programs and policies related to ASCP's global healthcare initiatives. As part of its recent efforts, ASCP is expanding its outreach in anatomic pathology in resource-limited countries around the globe for which Dr. Milner has volunteered his time over the past 18 months. For more than a decade, Dr. Milner has been active in Partners in Health, which delivers healthcare to underserved communities around the globe, in addition to his almost 20 years of direct research and clinical service in Africa.

Dr. Milner has been the recipient of numerous awards, including those for his research, teaching, and community service. He was the first recipient of the Brigham and Women's Hospital Felix Brown Pathologist-in-Training Award.

**Mohamed K. Mohamed, MD, PhD**  
Director, Thoracic Oncology Program; Hematologist/Oncologist  
*Cone Health Cancer Center*

Mohamed K. Mohamed, MD, PhD, is a practicing hematologist and oncologist, and director of the Thoracic Oncology Program at Cone Health Cancer Center in Greensboro, North Carolina. Dr. Mohamed specializes in internal medicine and oncology. He completed his hematology/oncology fellowship at the University of Pittsburgh.

**Jan A. Nowak, MD, PhD**  
**Clinical Chief, Molecular Pathology**  
***Roswell Park Comprehensive Cancer Center***

Jan A. Nowak, MD, PhD, is the clinical chief of molecular pathology at Roswell Park Comprehensive Cancer Center. Dr. Nowak is certified in molecular genetic pathology and anatomic and clinical pathology. His areas of expertise include anatomic, clinical, and molecular pathology; laboratory management; laboratory regulatory oversight; and laboratory and professional services coding and reimbursement.

He is a member of the College of American Pathologists (CAP) Economic Affairs Committee, a member of the cap Guideline Metrics Experts Panel, an editorial panel member for the American Hospital Association; co-chair of the Molecular Pathology Advisory Group, co-chair of the Proprietary Laboratory Assay Technical Advisory Group, and associate editor for Clinical Pathology, Archives of Pathology and Laboratory Medicine.

Dr. Nowak obtained his medical degree from the University of Rochester School of Medicine and doctorate in biophysics from the University of Rochester in Rochester, New York.

**Anna Pugh**  
**Director of Public Policy Initiatives**  
***LUNGeVity Foundation***

Anna Pugh is the director of public policy initiatives at LUNGeVity Foundation, where she is responsible for advocating on behalf of and executing strategies around the Foundation's policy priorities focused on how people are living with and navigating lung cancer. Ms. Pugh joined LUNGeVity in 2017 from the American Cancer Society Cancer Action Network, where she served as senior specialist of strategic partnerships. She obtained her bachelor's in family and consumer sciences from the University of Georgia.

**Prasanth Reddy, MD, MPH, FACP**  
**Vice President, Medical Affairs**  
***Foundation Medicine***

Prasanth Reddy, MD, MPH, FACP, is vice president of medical affairs at Foundation Medicine, and board-certified in medical oncology, hematology, and internal medicine—specializing in cancer care, blood disorders, and breast care.

Dr. Reddy is a member of the American College of Physicians and the American Society of Clinical Oncology. He received his medical training at the University of Kansas Medical Center, where he also completed his internship and residency.

**Jim Rose, MBA, BSE**  
**Vice President, Market Development**  
*VieCure*

Jim Rose, MBA, BSE, is the vice president of market development for VieCure—a company whose goal is to bring innovative solutions to cancer patients and their doctors through its AI platform for oncology—which he joined in 2017. At VieCure Mr. Rose is responsible for the establishment of market leadership, company growth, and the VieCure brand by driving key initiatives to grow business across multiple client verticals.

Prior to joining VieCure, Mr. Rose served as vice president of strategic enterprise solutions at Elekta where he led efforts with large healthcare clients to provide them commercial and advisory solutions that improve the overall health and strength of their cancer enterprise. There, he also served as vice president of marketing & strategic accounts, leading both upstream and downstream marketing, and developing new and innovative competitive and commercial strategies. Mr. Rose is a graduate of the University of Pennsylvania.

**Michael Sanderson**  
**CEO**  
*PierianDx*

Michael Sanderson is CEO of PierianDx and a 25+ year healthcare strategy and growth leader with proven skills of driving revenue and building shareholder value in start-up, venture-backed, and publicly-traded companies. Mr. Sanderson most recently served over a decade as the co-founder and president of RemitDATA, Inc., a leader of comparative analytics which was sold to eSolutions—a Francisco Partners company—in August 2017.

Prior to RemitDATA, Sanderson served as the chief sales and marketing officer of ChartONE, a leading provider of online medical record solutions which had spun out of QuadraMed in 2001. Mr. Sanderson was one of four former QuadraMed executives who created and executed the successful launch of ChartONE, doubling its revenue from \$40 to \$80 million.

Mr. Sanderson started his career in sales with Baxter Hospital Supply, now part of Cardinal Health, where he distinguished himself with consistent quota overachievement and President's Club participation.

**Kristen C. Santiago**  
**Senior Director, Policy & Advocacy**  
*Cancer Support Community*

Kristen C. Santiago is the senior director of policy and advocacy at Cancer Support Community, to which she brings substantial experience working in the healthcare industry, having held roles in the public, private, and not-for-profit sectors. In her current role, Ms. Santiago is responsible for the development and implementation of CSC's regulatory and

legislative agenda, securing and growing relationships with policymakers and stakeholders across multiple sectors, and engaging national partners to identify areas of common work and consensus to collectively advocate for positive change for people affected by cancer.

In her previous position as director of strategic initiatives & outreach at C-Change, Ms. Santiago oversaw two of the organization's strategic initiatives: Assuring Value in Cancer Care, focusing on improving the quality of care for individuals with cancer and their loved ones; and Sustaining a Strong National Cancer Workforce, focusing on increasing the quantity of individuals who provide care and improving the quality of the care they provide. Ms. Santiago earned her master's in health promotion management at American University.

**Michelle Shiller, DO**  
Assistant Medical Director, Member, Cancer Center Quality Committee  
*Baylor Scott & White Health*

Michelle Shiller, DO, is assistant medical director and member of the Cancer Center Quality Committee at Baylor Scott & White Health. She is a leader in integrating clinical use of molecular diagnostics including effective utility, interpretation, and application of testing.

In this rapidly evolving field, Dr. Shiller helps to effectively bridge educational gaps through public speaking on topics including, but not limited to, targeted therapy, prognostics, techniques, genetic disorders, and ethical and legal considerations in genomic medicine in order to break down barriers to implementation and adoption. She is skilled at integrative reporting beginning with histology, as well as relevant laboratory tests, imaging and clinical data, and considerations relevant to the patient's family.

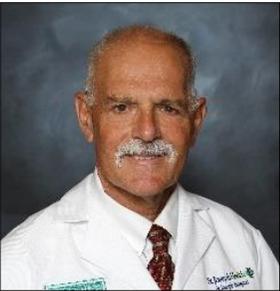

**Robert J. Shovlin, MBA**  
President, Clinical Services  
*NeoGenomics Laboratories*

Robert J. Shovlin, MBA, has been president of the clinical services division at NeoGenomics Laboratories, Inc. since October 3, 2016. Prior to NeoGenomics, Mr. Shovlin served as chief development officer of Bostwick Laboratories, Inc., where he was responsible for sales, marketing, business development, managed care, new product development, and clinical trials. From 1992 to 1997, Mr. Shovlin was an infantry officer (captain) in the United States Marine Corps, where he served as a platoon and company commander with 1st Battalion, 4th marines and as an instructor and staff platoon commander at the Basic School. He holds a master's from Rutgers University.

**Katherine Szarama, PhD**  
**Presidential Management Fellow**  
*Centers for Medicare & Medicaid Services (CMS)*

Katherine Szarama, PhD, joined the Centers for Medicare & Medicaid Services (CMS) in 2016 as presidential management fellow in the coverage and analysis group of the Center for Clinical Standards and Quality (CCSQ). She recently served as lead analyst for the FDA-CMS Parallel Review of Foundation Medicine Inc.'s FoundationOne® CDx comprehensive genomic profiling assay to support precision medicine in oncology. She also coordinates a project in the U.S. Health and Human Services Office of the Chief Technology Officer to continue helping Medicare beneficiaries access laboratory diagnostics.

**Lawrence Wagman, MD**  
**Executive Medical Director**  
*St. Joseph Health*

Lawrence D. Wagman, MD, is the executive medical director for the Center for Cancer Prevention and Treatment at St. Joseph Hospital. He assumed this position in 2008 during which time, he opened an independent surgical oncology practice that focused primarily on hepatopancreaticobiliary (70%), gastric, sarcoma, melanoma, and breast cancers. Dr. Wagman was the original program director for the Liver, Bile Duct and Pancreas Program, and is now the program director for the Cancer Wellness Program.

Dr. Wagman served as the institutional and national cooperative group principal investigator for many clinical trials, and has led a basic science laboratory investigating targetable receptors and liver regeneration. His leadership activities include positions that represent service in the venues of population care delivery, policy development, growth and development of future researchers and clinicians, and application of evidence-based cancer care focus to community practice.

He has authored numerous peer-reviewed surgical oncology publications, guest edited *Surgical Oncology Clinics of North America* twice, and edited *Cancer Management: A Multidisciplinary Approach*.

**Mary Steele Williams**  
**Executive Director**  
*Association for Molecular Pathology (AMP)*

Mary Steele Williams is the executive director of the Association for Molecular Pathology (AMP), a medical professional society whose over 2,400 members work throughout the world in the diverse settings associated with molecular diagnostics research and clinical services: academic medical centers, community hospitals, commercial reference laboratories,

government agencies, as well as product manufacturing, biotechnology, and pharmaceutical companies. AMP expertise shapes public policy and clinical molecular testing through innovation, education, practice guidelines, and advocacy. Prior to joining AMP in 2004, Ms. Williams spent over a decade in the molecular diagnostics manufacturing industry.

Suzanne Ziemnik, MEd  
Vice President, Continuing Professional Development  
*American Society for Clinical Pathology (ASCP)*

Suzanne Ziemnik, MEd, is the vice president of continuing professional development at the American Society for Clinical Pathology (ASCP). Prior to ASCP, Ms. Ziemnik served as director in the division of continuing medical education for the American Academy of Pediatrics. She obtained her Master of Education degree in adult and continuing education from the University of Illinois.

---

Amanda Leiting, RN, BSN  
Associate Director, Companion Diagnostics, Oncology  
*AbbVie*

Meg Amplement  
Director, Companion Diagnostics  
*AbbVie*

Susan Jewell, PhD, MBA  
Associate Scientific Director, Medical Affairs US Oncology  
*AbbVie*

Bob Donovan  
Director, Strategic Alliances  
*Pfizer*

Julie Ramage  
National Account Director Diagnostics  
*Pfizer*

Michael A. Cantrell, PhD  
Medical Scientist  
*Bristol-Myers Squibb*

Jaclyn Rosenbaum, PharmD  
US Oncology Advocacy and Policy  
*Bristol-Myers Squibb*

Chloe Stacy, PharmD  
US Immuno-Oncology Biomarkers Marketing, Product Manager  
*Bristol-Myers Squibb*
